W. F. Brannen, one of this county's best farmers, was in town Saturday. Mr. Brannen raised plenty of "hogs and hominy" last year, and some of his porkers were large enough to run into money pretty fast. Sid Hinely returned from up the country Sunday where he had been to buy horses and mules for his stables. Sid met up with the cold wave in Atlanta Saturday, where it was 10 degrees above zero, somewhat colder than we are accustomed to in Florida, and this helped materially to hasten his departure for home. A genuine Floridian like Sid Hinely will not spend much time in a country where the weather is allowed to register near the zero mark.

The cold wave struck this section of Florida in dead earnest Sunday when the thermometer registered 24 degrees. Monday morning it was 27. Saturday, Sunday and Monday were cold and disagreeable days with a strong north-west wind. Except to gardens and tender vegetation the cold did little damage. Young and tender orange buds have probably been killed in this section, older orange and grapefruit trees were not injured. There are not a great many orange trees in this county, but those who do own trees value them quite highly.
